PROFILE

With 9 years of hands-on experience in the digital advertising industry, I specialize in dev/design static and dynamic (DCO) HTML5 creatives for leading ad platforms, including DCM, Sizmek, Adform, FT, TTD, & DCS, working with major AU, UK, and US brands. Experienced across the full creative production lifecycle from creative development and tag generation to trafficking, campaign management, troubleshooting, and live deployment using tools such as GWD, Animate, Photoshop, Bonzai, Celtra, and Adform.

EXPERIENCE

WPP Production (Formerly Hogarth), Chennai. Senior Frontend Developer

Sep 2021 – Present

- Experienced in building and deploying HTML5 static, dynamic (DCO), and rich media creatives across leading ad platforms including DCM, Adform, Sizmek, Flashtalking, Celtra, and Bonzai, with expertise in profile setup, feed integration, asset management, versioning, QA, and campaign delivery.
- Skilled in end-to-end creative operations including rich media development, preview page creation, cross-browser/device testing, and responsive HTML/MJML email template development with Litmus/Acid testing workflows.

Theorem India Pvt Ltd, Mysore. Senior Creative Developer

Feb 2021 – Sep 2021

- Experienced in end-to-end HTML5 creative production workflows from development (GWD/HTML5) to deployment across DCS, CM, GAM, and live environments, including troubleshooting and QA before client delivery.
- Specialized in creating highly engaging interactive and rich media ad formats such as DCO, Carousel, Expandable, Lead Capture, TruSkin, Pushdown, ScrollX, Portal, and reusable GAM-ready HTML5 ad templates for scalable campaign execution.

Paragon Digital Services Pvt Ltd (Dentsu), Chennai. Dynamic Creative Developer/Ad Trafficker

Jul 2016 – Jan 2021

- Experienced in analyzing campaign briefs, planning and developing static and dynamic HTML5 creatives, including DCS profile/feed setup, dynamic linking, tearsheet generation, creative maintenance, troubleshooting, and ongoing production support.
- Skilled in campaign trafficking across CM360, GAM, and DV360, rich media QA/testing, floodlight implementation, and preparing delivery reports, billing reports, and campaign presentation decks.
